Partnership in Growth!

"The Modern Niagara - Crane Supply partnership at the RBC Centre project is a demonstration of remarkable synergy. The RBC Centre project, located in the heart of the Toronto downtown core, is logistically complex as you would expect of any large development. Crane's ability to provide **just in time delivery** offers a high level of efficiency and comfort when it comes to daily line material deliveries to our field forces. With virtually **no backorders**, frequent communication, and Crane's cooperation, our partnership with Crane has allowed MNTI to deliver this project **on time and on budget** to our client. Special thanks to sales professionals Caroline Lake, Jag Kandola, and the material delivery drivers at Crane Supply for their support."

Richard W. Norton, Modern Niagara
